

INTERUNIVERSITY WORKSHOP

Faculty Development Program on Outcome-Based

Teaching-Learning Strategies

NTTC-HP Auditorium, June 29-30, 2017

Program brief:

This is a two-day program especially designed for health sciences faculty members to capacitate them effectively implement outcome-based teaching learning strategies. Participants will develop their own teaching-learning repertoire based on given instructional designs.

Target workshop participants: 60 faculty members of health sciences schools

Program Outcomes:

1. Distinguish the basic features of best-evidence teaching-learning strategies following the OBE curriculum and instructional designs.
2. Given sample instructional scenarios:
 - a. Formulate appropriate technological pedagogical content knowledge (TPACK)
 - b. Create relevant cases, triggers, and problems for a variety of TL strategies
 - c. Demonstrate effective facilitating skills
3. Express appreciation of the OBE design as a curriculum, instructional, and quality assurance framework

Program

Day 1, June 29, 2017

Time	Activities
